# **STORM DAMAGE**

## **WHO TAKES CARE OF IT?**

---

### **GLE's Responsibilities:**

GLE is responsible for all repairs to the power lines, including the service wires that connect to the weatherhead.

GLE is also responsible for the meter and will provide a new meter base, if needed, at no charge. Contact us once your electrician has completed repairs and the electrical inspector has approved the work.

or call 888-485-2537**

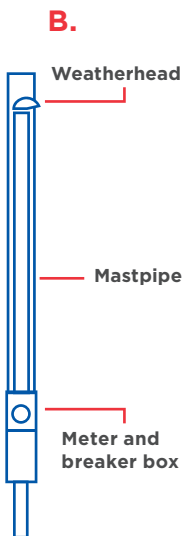

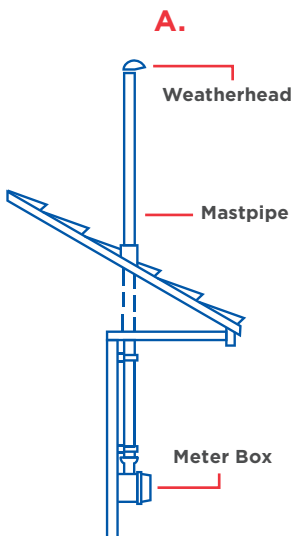

# Your Responsibilities:

▶ **A. Is your meter is located on your house?**

You are responsible for all equipment below and including the weatherhead, called the service entrance, EXCEPT for the meter. Contact a licensed electrician to make repairs.

▶ **B. Is your meter is located on a pole?**

You are responsible for all equipment below and including the weatherhead, called the service entrance, EXCEPT for the meter. You are also responsible for the pole and breaker box. Contact a licensed electrician to make repairs.
